

Respected Parent

AoA,

TPS-DRC/JTC has uploaded topic wise contents of 1st Term syllabus (till 31-05-20). It is a detailed course outline aided with video tutorials and text reference to save students time. In the context of social distancing it is an effective and supporting effort indeed. Hopefully students will find it helpful. They are suggested to follow the study working instructions/study plan given for them as per their work and class.

At the closure of schools, in the very beginning, we devised and suggested our students a study day plan. We hope our students will have now punctual and regular studying habit at home. During the third week May we may forward subject wise assessment sheets if it would be viable at that time.

In our routine perception, hard copy of summer-work pack is considered integral during summer vacation. When the lockdown is over we will inform you about any hard copy of summer pack accordingly, if convenient. But students are strictly advised that preparation and learning must be continued through the uploaded recourses so far.

We know very clearly that studying at home is possible with the parental vigilance and guidance only. We appreciate parents' involvement and time for their wards at home.

Thank you.

With best wishes,

Admin
